

SC150-EN ISMS Auditor/Lead Auditor ISO27001:2022 (IRCA A17608)

Kurzbeschreibung:

In the Information Security Management Systems Auditor/Lead Auditor course, participants will learn effective auditing to ensure that the guidelines for the security of the company and its customers are followed diligently and according to the guidelines of the ISO 27001:2022 standard.

The workshop will consist of a combination of classroom, group work and role play. The workshop will be held in German, with English documentation and with English examination. The approx. 2-hour examination, which consists of both multiple-choice questions and own explanations, takes place on the last day.

IRCA Training Organisation ID: AO17607
IRCA Course ID: A17608

Exam duration:
Native-Speaker: 1.45 hours
Non-native speaker: 2.15 hours

Zielgruppe:

The courses are aimed at all those who

- want to establish a formal information security management system in accordance with ISO 27001:2022
- want to enhance their knowledge and skills as an auditor
- want to advise on ISO 27001:2022 certifications as a consultant
- are professionally active in the field of IT and quality management

Voraussetzungen:

You should have knowledge of information security (e.g. necessities, responsibilities, management commitment, risk assessment, incident management) and management system processes (PDCA).

It is advantageous if you have had initial auditor experience, have attended an ISO 27001 implementation course and have **intensive** knowledge of standards (requirements from ISO 27001/2, ISO 27000 terms & definitions) or have equivalent prior knowledge.

Failure to meet the course requirements may negatively impact the continuous assessment. Passing the continuous assessment is a prerequisite for successful completion of the course. The final written examination may also include questions on individual requirements of ISO 27001 or questions on prerequisite prior knowledge.

If you are unsure whether you meet the requirements, please contact us before registering.

If you are unsure whether a face-to-face or online course is a better fit for you, you can find [a description of our course formats here](#). The technical requirements for an online course can be found [here](#).

Please note that online courses require the use of a webcam from IRCA.

. To take the exam you will need a document with a photo to prove your identity e.g. ID card, passport or driving licence.

Sonstiges:

Dauer: 5 Tage

Preis: 2950 Euro plus Mwst.

Ziele:

Effective auditing determines the success of information security management systems: this makes auditing a challenge that combines complex problems with a high degree of responsibility.

The five-day intensive course prepares participants for the ISO 27001:2022 Auditor/Lead Auditor qualification and trains them in conducting audits for a certification body.
